

# Freight Calculation

## How to use the freight table

To determine the freight charge simply:

1. Choose the State to which the items are to be forwarded.
2. Choose either the capital city or Other Area as appropriate.
3. If you are purchasing Small Items only, use the "Small Items" line in the table to calculate the freight charge; **or**
4. Should you be purchasing Large Items (Cushions, Bean Bags, Throws) or a combination of Small + Large Items, please use the "Large Items" line in the table to calculate the freight charge.
5. Transfer the total figure calculated to the order form over page where indicated "Freight".

Example 1:

The freight cost for three (3) Small Items to be delivered to Perth would be as follows:

2 items (\$9.05) + 1 item (\$1.50) = \$10.55 Total

Example 2:

The freight cost for two (2) Large Items + five (5) Small Items to be delivered to New South Wales Country would be as follows:

2 Items (\$9.50) + 5 Items (\$6.00) = \$15.50 Total

For freight prices to areas not detailed, please contact us for a quote.

## Prices

Freight is charged at cost. All product and freight prices are inclusive of GST and are correct at time of printing. Whilst every effort is made to maintain these prices, we reserve the right to amend if necessary. You will be contacted prior to your order being processed, should this occur.

## Delivery Times

Please allow 5-10 working days for delivery. Your order will be dispatched as quickly as possible - delivery times vary depending on delivery location.

## Availability

All products are available for despatch unless sold out. We will advise you if a product is not available within 10 working days and the approximate lead-time for delivery.

## Overseas Orders

Overseas customers are welcome. Orders must be paid for in Australian Dollars and appropriate freight charges will apply. Please contact us.

## Please forward your order to:
